VENTILATOR****Cell Vent****4****Product Description**

The U.S. Wire cell vent is designed to drain moisture from the brick wall and prevent efflorescence or spalling. The cell vent design consists of many small, adjacent passageways bonded together in one unit. This cellular composition provides easy drainage for moisture along the full height of the head joint. The cell vent is manufactured from Ultra Violet resistant flexible high-quality polypropylene co-polymer.

UNIT MASONRY
Weep Ventilator

- Polypropylene tested in conformance with ASTM D2240, D790B, D638, and D1238B.

Advantages

- Drains moisture from the cavity
- Prevents insects from entering the cavity
- Not visible when set back
- Easy to install
- Custom sizes available
- Available in five standard colors to match mortar color

Applications

- Ideal for most masonry construction applications

Packaging

U.S. Wire cell vents are available in two sizes

- Regular: $\frac{3}{8}$ " W x $2\frac{1}{2}$ " H x $3\frac{3}{8}$ " L (Box contains 200 pieces)
- Jumbo: $\frac{3}{8}$ " W x $3\frac{3}{8}$ " H x $3\frac{3}{8}$ " L (Box contains 200 pieces)
