Safe Step® - A Real Ice Breaker

When you're looking for a powerful ice melter that outperforms single ingredients and simple blends - look to Safe Step. Manufactured with a patented process, it puts the power of multiple ingredients on the granules - for true synergistic melting performance. In fact, Safe Step's formula helps prevent refreezing up to 2 ½ times longer than conventional ice melters. And when used as directed, it's safe on skin, concrete, plants, pets, shoes and carpets.

SafeStep.

Tough On Ice. Gentle On Everything Else.™

KEY FEATURES	BENEFITS
Manufactured with a patented process (not a simple blend)	Puts the power of multiple ice melting ingredients on the granules for true synergistic melting power
	Melts ice below 0°F/-18°C
Contains MG 104®	Helps prevent refreezing up to 2 ½ times longer than conventional ice melters
	Lowers effective freezing temperature
	Protects concrete from damage by extending the freeze/thaw cycles
Potassium chloride based	Won't harm concrete, plants, pets, shoes or carpet when used as directed; no slick oily residue
No need for gloves or goggles	Safe to handle; won't harm skin
Non-hygroscopic; does not absorb moisture	Won't clump in the bag; provides unlimited shelf life
Nationally distributed in a variety of package materials and sizes from 10 lb - 2,000 lb	Readily available

SAFE STEP IS AVAILABLE IN:

- 10# Poly Bag
- 12# Jug
- 100# Corrugated Box
- 25# Poly Bag
- 40# Plastic Pail
- 100# Fibre Drum
- 50# Poly Bag
- 50# Corrugated Box
- 2000# Ton Tote
- 80# Poly Bag
