

Similar to the FHA7, but provides trowel access underneath to clean excess material and trim vapor barrier.

- Provides straight-edge stops for applied plaster stucco and E.I.F.S.
- Offers exacting grounds.
- Impact and splash protection at bottom edge.

Sill Screed

The SI36 is a similar profile to the FHA7 Foundation Screed except the bottom flange has been cut back to allow trowel access for cleaning excess material and trimming of the vapor barrier. The SI36 meets all other applicable codes with respect to 3-1/2" nailing flange, 26-gauge galvanized steel and 7/8" ground.

7/8" Sill Screed (SI36)

DMF Product Code	Size						Weight/Carton		Packaging	
	Grounds		Depth		Length		lbs	kg	Pcs/ Carton	Pcs/ Skid
