# For Jobs That Demand a Class A Finish

## No Manual Finishing Needed

### FEATURES:

- ✓ **Superior Aesthetics**  
Class A finish. Produces a unique smooth finish that is sure to please any building professional.
- ✓ **Moisture Resistant Weather Shield™ Technology**  
Moisture resistant adhesive provides a more structurally sound tube when subjected to moisture than a tube made with non-moisture adhesive.
- ✓ **EasyStrip™ Pull Tab**  
Ask for the Professional Seamless™ concrete forming tubes that have an EasyStrip™ pull tab built into the tube. Makes tube removal faster and easier.
- ✓ **Convenience**  
One time use tubes allow faster setup for multiple column pours with no cleaning, reassembling or return shipping. Eliminates need to use sawzall/circular saw to cut tube for release. Saves time and money.
- ✓ **Installation**  
Easily placed manually or by crane.
- ✓ **Tube Strength**  
Engineered to hold the full hydro-static pressure of a continuous pour.\*
- ✓ **Unique Green Outerply**  
Let everyone know you are using one of the best tubes for a Class A finish.
- ✓ **Popular Sizes Available**
- ✓ **Available in 12" – 48" diameters**  
Up to 24ft. continuous length. Over 24ft., please contact your Sales Representative.
- ✓ **Form Stripping Instructions**  
Strip the form as soon as possible after concrete sets to prevent concrete from sticking to the form. Use the EasyStrip™ pull tab to open the tube for easy removal. Ideal time for form removal is 24 to 48 hours after the pour. Maximum time to leave Professional Seamless forms on column is 5 days.

\*Pouring rate based on tube size and specific job site conditions

Specially Formulated Smooth Coating

Convenient Pull Tab

EasyStrip™

Made from  
recycled paperboard
