

Version: 3.1 Revision Date: 06/29/2020

# SAFETY DATA SHEET

# 1. Identification

Material name: EUCO SOLVENT Material: 045 05

#### Recommended use and restriction on use

Recommended use: Coatings Restrictions on use: Not known.

#### Manufacturer/Importer/Supplier/Distributor Information

EUCLID CHEMICAL COMPANY 19218 REDWOOD ROAD CLEVELAND OH 44110 US

Contact person: Telephone: Emergency telephone number: EH&S Department 216-531-9222 1-800-424-9300 (US); 1-613-996-6666 (Canada)

### 2. Hazard(s) identification

#### **Hazard Classification**

#### **Physical Hazards**

| Flammable liquids | Category 3 |
|-------------------|------------|
| Flammable liquids | Category 3 |

# **Health Hazards**

| Acute toxicity (Inhalation - vapor)<br>Acute toxicity (Inhalation - dust and<br>mist) | Category 4<br>Category 4 |
|---|--------------------------|
| Skin Corrosion/Irritation   | Category 2               |
| Serious Eye Damage/Eye Irritation   | Category 2A              |
| Germ Cell Mutagenicity  | Category 1B              |
| Carcinogenicity   | Category 1B              |
| Specific Target Organ Toxicity -<br>Single Exposure                                   | Category 3 <sup>1.</sup> |
| Aspiration Hazard   | Category 1               |

#### **Target Organs**

1. Respiratory tract irritation.

#### **Unknown toxicity - Health**

| Acute toxicity, oral                     | 4 %     |
|--|---------|
| Acute toxicity, dermal                   | 16.01 % |
| Acute toxicity, inhalation, vapor        | 64.98 % |
| Acute toxicity, inhalation, dust or mist | 65 %    |

#### **Environmental Hazards**

|           | Acute hazards to the aquatic environment  | Category 2   |
|-----------|---|--|
|           | Chronic hazards to the aquati environment | c Category 2   |
| Unkn      | own toxicity - Environment                |  |
|           | Acute hazards to the aquatic environment  | 63.47 %  |
|           | Chronic hazards to the aquati environment | c 54.5 %   |
| Label Ele | ements                                    |  |
|           | Hazard Symbol:                            |  |
|           | Signal Word: Dar                          | nger   |
|           | Har<br>Car<br>Car<br>Ma<br>Ma<br>Ma<br>Ma | mmable liquid and vapor.<br>mful if inhaled.<br>uses skin irritation.<br>uses serious eye irritation.<br>y cause genetic defects.<br>y cause cancer.<br>y cause respiratory irritation.<br>y be fatal if swallowed and enters airways.<br>kic to aquatic life with long lasting effects. |
|           | Precautionary<br>Statements               |  |
|           | SOU                                       | ep away from heat, hot surfaces, sparks, open flames and other ignition<br>irces. No smoking. Keep container tightly closed. Ground and bond<br>tainer and receiving equipment. Use explosion-proof  |

sources. No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof [electrical/ventilating/lighting/...] equipment. Use non-sparking tools. Take action to prevent static discharges. Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash thoroughly after handling. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Avoid release to the environment. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye

irritation persists: Get medical advice/attention. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. If skin irritation occurs: Get medical advice/attention. IF SWALLOWED:

**Response:** 

|  | Immediately call a POISON CENTER/doctor/ Do NOT induce vomiting.<br>Call a POISON CENTER/doctor if you feel unwell. Specific treatment (see<br>on this label). Take off contaminated clothing. In case of fire: Use to<br>extinguish. Collect spillage. |
|--|---|
| Storage:                                   | Store in a well-ventilated place. Keep cool. Store locked up. Keep container tightly closed.  |
| Disposal:                                  | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.  |
| Hazard(s) not otherwise classified (HNOC): | Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment.  |

# 3. Composition/information on ingredients

#### **Mixtures**

| Chemical Identity              | CAS number | Content in percent (%)* |
|--------------------------------|------------|-------------------------|
| Aromatic petroleum distillates | 64742-95-6 | 20 - <50%               |
| 1,2,4-Trimethylbenzene         | 95-63-6    | 25 - <50%               |
| 1,3,5-Trimethylbenzene         | 108-67-8   | 10 - <20%               |
| 1,2,3-Trimethylbenzene         | 526-73-8   | 1 - <5%                 |
| Xylene                         | 1330-20-7  | 1 - <5%                 |
| Cumene                         | 98-82-8    | 1 - <2.5%               |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

# 4. First-aid measures

# Description of necessary first-aid measures

| Inhalation:                                       | Move to fresh air.   |
|---|--|
| Skin Contact:                                     | Take off immediately all contaminated clothing. Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash contaminated clothing before reuse. Get medical attention. |
| Eye contact:                                      | Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.   |
| Ingestion:  | Rinse mouth. Call a physician or poison control center immediately.<br>Never give liquid to an unconscious person. If vomiting occurs, keep<br>head low so that stomach content doesn't get into the lungs.                    |
| Personal Protection for First-<br>aid Responders: | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.   |

Most important symptoms/effects, acute and delayed

| Symptoms:  | Respiratory tract irritation. Prolonged or repeated contact with skin may cause redness, itching, irritation and eczema/chapping.   |  |  |  |  |
|--|---|--|--|--|--|
| Hazards:   | No data available.  |  |  |  |  |
|  |   |  |  |  |  |
| Indication of immediate medical  | attention and special treatment needed  |  |  |  |  |
| Treatment:   | Symptoms may be delayed.  |  |  |  |  |
| 5. Fire-fighting measures  |   |  |  |  |  |
| General Fire Hazards:  | Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting the fire. Fight fire from a protected location. Move containers from fire area if you can do so without risk.  |  |  |  |  |
| Suitable (and unsuitable) exting   | uishing media   |  |  |  |  |
| Suitable extinguishing media:  | Use fire-extinguishing media appropriate for surrounding materials.   |  |  |  |  |
| Unsuitable extinguishing media:  | Avoid water in straight hose stream; will scatter and spread fire.  |  |  |  |  |
| Specific hazards arising from the chemical:                                | Vapors may travel considerable distance to a source of ignition and flash back. Vapors may cause a flash fire or ignite explosively. Prevent buildup of vapors or gases to explosive concentrations.  |  |  |  |  |
| Special protective equipment a   | nd precautions for firefighters   |  |  |  |  |
| Special fire fighting<br>procedures:                                       | No data available.  |  |  |  |  |
| Special protective equipment for fire-fighters:                            | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.  |  |  |  |  |
| 6. Accidental release measure  | 25  |  |  |  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures: | Ventilate closed spaces before entering them. ELIMINATE all ignition<br>sources (no smoking, flares, sparks or flames in immediate area). Keep<br>upwind. See Section 8 of the SDS for Personal Protective Equipment. Do<br>not touch damaged containers or spilled material unless wearing<br>appropriate protective clothing. Keep unauthorized personnel away. |  |  |  |  |
| Accidental release measures:   | In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.   |  |  |  |  |
| Methods and material for<br>containment and cleaning<br>up:                | Dam and absorb spillages with sand, earth or other non-combustible material. Collect spillage in containers, seal securely and deliver for disposal according to local regulations.   |  |  |  |  |
| Environmental Precautions:   | Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid release to the environment.<br>4/19  |  |  |  |  |

| 7. Handling and storage                                  |  |
|--|--|
| Handling   |  |
| Technical measures (e.g. Local and general ventilation): | Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of vapors and mist. Mechanical ventilation or local exhaust ventilation may be required.   |
| Safe handling advice:                                    | Provide adequate ventilation. Wear appropriate personal protective<br>equipment. Observe good industrial hygiene practices.Do not handle until<br>all safety precautions have been read and understood. Obtain special<br>instructions before use. Use personal protective equipment as required.<br>Avoid contact with eyes. Wash hands thoroughly after handling. Keep away<br>from heat, hot surfaces, sparks, open flames and other ignition sources. No<br>smoking. Ground and bond container and receiving equipment. Take<br>precautionary measures against static discharges. Avoid contact with skin. |
| Contact avoidance measures:                              | No data available.   |
| Hygiene measures:  | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Avoid contact with eyes. When using do not smoke. Wash contaminated clothing before reuse. Avoid contact with skin.  |
| Storage  |  |
| Safe storage conditions:                                 | Store locked up. Store in a well-ventilated place. Store in a cool place.  |
| Safe packaging materials:                                | No data available.   |

# 8. Exposure controls/personal protection

## **Biological Limit Values**

| Chemical Identity  | Exposure Limit Values         | Source              |
|--|-------------------------------|---------------------|
| Xylene (Methylhippuric acids:<br>Sampling time: End of shift.) | 1.5 g/g (Creatinine in urine) | ACGIH BEI (03 2013) |

#### Appropriate Engineering Controls

Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of vapors and mist. Mechanical ventilation or local exhaust ventilation may be required.

# Individual protection measures, such as personal protective equipment

| General information:                | Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use explosion-proof ventilation equipment. |
|-------------------------------------|---|
| Eye/face protection:                | Wear safety glasses with side shields (or goggles).   |
| Skin Protection<br>Hand Protection: | Use suitable protective gloves if risk of skin contact.   |
| Other:                              | Wear suitable protective clothing. Wear chemical-resistant gloves,<br>footwear, and protective clothing appropriate for the risk of exposure.<br>Contact health and safety professional or manufacturer for specific<br>information.  |
| Respiratory Protection:             | In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.   |
| Hygiene measures:                   | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Avoid contact with eyes. When using do not smoke. Wash contaminated clothing before reuse. Avoid contact with skin.   |
